We use cookies to better the users experience while visiting the Website. Where applicable this Website uses a cookie control system allowing the user on their first visit to the Website to allow or disallow the use of cookies on their computer and/or device. What is in a cookie?

A cookie is a simple text file that is stored on your computer or mobile device by a website's server and only that server will be able to retrieve or read the contents of that cookie. Each cookie is unique to your web browser. It will contain some anonymous information such as a unique identifier and the site name and some digits and numbers. It allows a website to remember things like your preferences or what's in your shopping basket.

Some websites will also use cookies to enable them to target their advertising or marketing messages based for example, on your location and/or browsing habits.

Cookies may be set by the website you are visiting ('first party cookies') or they may be set by other websites who run content on the page you are viewing ('third party cookies').
